THE BANK STATEMENT su)mitted this afternoon, although its favorable fea-tures produced little effect upon the street, a good statement being generally looked for, while the Rock Island affair continued to absorb a great deal of attention. The increase in deposits is over five millions, made up of an increase of nearly two millions in specie, an increase of about two and a half millions in legal tenders and an increase of half a million in loans. The banks gain about four million In reserve. Despite the large deposits the surplus in excess of the legal reserve has been increased about three millions. The last two statements compare as

THE MONEY MARKET	

was easy at five to six per cent, with exceptions four and seven. The lower rates were obtained by lenders who were anxious to employ large sums over the holiday to Monday. Discounts were more surrent at a decided relaxation in rates. Prime short paper sold at seven per cent, and for the ordi nary double name acceptances the rate ranged from seven and a half to nine per cent. Foreign exchange was steady, but with little doing after the steamers GOLD ACTIVE

The gold market exchanged its heaviness for dechied activity, and the price rose from 120% to 120%. The purchases of the importing merchants and the firmness of exchange communicated strength to the market, and evidence was not wanting that some large purchases were made on speen increase of the short interest, the general carrying being from five to seven per cent, although some transactions occurred as low as four and ever one per cent. The course of the premium is shown

The stock market was in general strong and for some of the list buoyant. Rock Island continued to bedealt in upon the sidewalk in front of the Stock Eichange and at the several calls of the National Beard. It opened at 103%, rose to 105%, declined to 16, and then advanced to 106%, closing finally at that figure. There was much discussion of the situa ton, but nothing new transpired. It is thought the additional stock will be registered and the whole almitted to the call again. A great deal of stock was sold, but strong buyers appeared to be meady to take it, and hence the inference hat the late demonstration was a stratagem made ase of by the shorts to cover old sales. The street is greatly puzzied about the matter, but still deals actively in the stock, which is as much a favorite as ever, despite its canishment. In the afternoon, preliminary to the bank statement, there was the usual activity in the Vanderbilt shares, New York Central rising to 91%, the scrip to 88% and Harlem to 140% Northwestern preferred was the feature on the report that a "corner" is preparing in it for "the old man, who got ahead of the Commodore in the Erte "corner," but who is now in for a very tight squeeze if, report says, he is short of the stock, especially as Mr. Vanderbilt is rumored to be a heavy buyer of it. For the sake of the public, who love sensations it is to be hoped this story is true, and that the two railway magnates of Wali street have again crossed swords. This is the return innings to the little game played in 1868. Lake Shore and Wabash were strong and higher. St. Faul was favorably affected by the circular of the resident of the company giving a summary of the operations for 1869. The express stocks were buoy-

The depression in the grain trade so affected the receipts of the company as to make it . impracticable to declare as large a cash dividend on the common as on the preferred stock. The company is made the unwilling agent of the government to collect about four cents per bushel for each bushel of wheat carried by it to pay for the direct and indirect taxes levied upon it by the State and federal authorities. GOVERNMENTS STRONG.

Government bonds opened strong at a slight improvement on the closing prices of Friday, but as the day wore on prices became active and advanced a half to three quarters per cent. The government market is very sensitive to bullish influences and advances upon the least pretext, which is taken as sign of the really firm tone which underlies it. The stimulating influence to-day was the strength of the gold premium as well as the steady investment de-With money worth only five to six per cent on call in the open market capital soon finds its way into these securities for present investment. THE STATE BONDS HEAVY.

In Southern securities the market was generally heavy. The Tennessees fell off about one per cent. The Louisiana levees were weak and declined. Virginias were steady and North Carolinas a fraction lower. Mail accounts from Raleigh explain the resolution adopted a few days since to suspend the payment of the interest on the special tax bonds. The sentinel says its object is to test their constitutionality. The preamble rehearses the constitutional provision that no appropriation bill shall be passed without at the same time making provision by special tax for the payment of the interest on it. It declares that the special tax laid for the payment of interest on the new appropriations is inadequate, and therefore the constitution was not complied with in making them. The resolutions, therefore, forbid the treasurer to pay more interest on the special tax bonds until the Supreme Court, to whom the resolutions refer the question of constitutionality, shall settle that ques question.
